

Halloween Pumpkin Carving Jack O Lantern Techniques

By [Bryan Burbank](#) Carving a pumpkin in to a jack-o-lantern is one of the most popular things that people do on Halloween. There are many degrees of techniques that people will use from the simple face carving to very fancy costumes that they add a pumpkin face to. It does not matter if you are doing a simple design or hard one carving a pumpkin should be embraced by all of your friends and family and should be a time to celebrate this Halloween season. The most important thing to carving a pumpkin is to know some basic facts such as no matter how fancy your carving is you must cut the top off first and remove all the insides of the pumpkin. The pumpkin needs to be empty on the inside so that you will have room to do your carving and also those insides can make a foul odor after a short period of time. When you are choosing what face you want to carve on your pumpkin you have many options form scary, mad, funny, happy, etc. Many people will carve the face and then they will use magic markers to add some color to there pumpkin such as red for the lips. Another option for you it to invest into a pumpkin carving kit because this will give you the tools you need to carve your pumpkin and there is also some patterns in the kit that you can use for the face. Remember that carving your pumpkin this Halloween season needs to be fun and you should get all the members of your family to participate because it makes for great family time.
