It comes with an adjustable mattress so you can probably fit most kinds of crib bedding into it – even those that were given as gifts from well-meaning aunts and uncles. And the best part about this crib is that it comes with a conversion kit. This conversion kit will help you adjust the entire furniture so that it can still work well for your child even up to his toddler years – turning the crib into a great toddler daybed! This certainly is the best style and value for your little one. There are fixed side rails to this crib for better security and safety, so your little one will not end up rolling off the crib and onto the floor.
